Africology® Intonga Amasatchi Massage

We know that the body has a memory of all emotional experiences. An inability to let go often expresses itself in the body that can be blamed for low immunity. Intonga Amasatchi is a deep tissue and stress-relieving treatment. Skillful movements are performed with the hands, and differently sized wooden sticks are used to stretch tight muscles and ease toxic overload from daily stress. Symbolically, the stick or staff represented wisdom and direction to the healer. Created from yellow wood, the traditional healer knew that the energy of earth was a valuable tool.

Africology® Slimming Detox Mud Wrap

We use an African plant combination infused into a natural mud to help with circulation and lymph drainage. This very effective clay contains L-carnitine and caffeine, which act as fat strippers and mobilisers to stimulate lipolysis. This invigorating wrap begins with stimulating and exfoliating, working on circulation and lymph drainage before the warm wrap is applied and heated. This wrap works particularly well for bodies in need of a detox owing to acidic conditions, arthritis and oedema. Completed with a circulatory massage and energy balancing. Not suitable for pregnant clients.

Africology® African Potato Wrap

Our pure and natural Hypoxis Body Wrap is formulated with African potato and marula oil, warmly applied to soften, soothe and improve skin hydration while also fighting free radical damage. This herbal blend relaxes you on application, while the rich background sounds of Africa help the mind focus on the holistic experience. Enjoy a traditional foot ritual and deeply relaxing scalp massage while the wrap is melted into the skin. Finally, there is a soothing massage with body-conditioning marula oil, which creates a natural barrier to hold in moisture and improve collagen and elastin, to complete the experience.

FACIAL TREATMENTS

“As we let our own light shine, we unconsciously give other people permission to do the same.” Nelson Mandela

Africology® African Goddess Facial

When your primary focus is a facial rejuvenation, but the body is also calling for tender loving care. Our treatment starts with a back and neck exfoliation followed by a muscular releasing massage, melting away tension. We know that a stressed muscular system can place much gravity on the facial muscles; often resulting in sagging skin. This treatment is a wonderful ritual that involves cleansing, massage and sound therapy, making it a sacred and sensory way to celebrate the Goddess within. A woman's breast is sacred, and with your permission your therapist will also work on rejuvenating the skin around this area.

Africology® Bespoke Facial

Our facials are bespoke & chemical free, yet performance driven with visible results. Your therapist will analyse your facial needs, take into consideration your expectation and prescribe the correct treatment approach for you. Our focus is always on deep pore cleansing, never stretching the pores or scarring the skin in doing so. Gentle in our approach, we know that hydration and effective supplementation are vital in preserving the skin's youthfulness. Never neglecting the sensitive skin under the eyes, dark circles and the importance of working on lifting and plumping up the skin. Preserving the skin and preventing pre-mature aging is our goal during your facial.
